**Goals and Objectives:**

- To provide a students a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving.
- To bring the next generation evolution by inclusion of new methodology to inculcate the culture of startup and innovation ecosystem across different age groups

**Description:**

Smart India Hackathon 2022 is a non-stop digital product development competition, where problems are posed to technology students for innovative solutions. It harnesses creativity & expertise of students, Sparks institute-level hackathons, Builds funnel for 'Startup India' campaign, Crowdsources solutions for improving governance and quality of life and provides an opportunity to citizens to provide innovative solutions to India's daunting problems. The first four editions SIH2017, SIH2018, SIH2019 and SIH2020 proved to be extremely successful in promoting innovation out-of-the-box thinking in young minds, especially engineering students from across India.
