Projects to be done

At this point, two projects have been identified to be done

Project 1 – Google assistant integration for ambulance trip booking

Project 2 – Dashboard using maps to display ambulance movement across various cities in India

Two teams of three students each will be working on each of the projects listed above.

In case any additions/subtractions need to be done in terms of projects/students, this needs to be notified in writing by the institute to the company. This will be done as an annexure to this agreement.

Duration

- The duration of the projects will be 3 months from the 1st week of June 2019
- Final duration of each of the projects will be decided based on the plan that is worked out between the company and the institute.

Deliverables

The deliverables of the projects will be –

- Requirements documents
- Design document
- Working code base
- Test results
- Integration with Dial4242 system in the production environment

The company will provide certificates to all the students who have worked on the projects on successful completion of deliverables listed above.
